

**Research in Chemistry**  
**2021 Research Experiences for Undergraduates**  
**May 24 – July 30**  
**West Virginia University**

Experience a unique combination of **multidisciplinary research, educational programs, community outreach** and **fun team-building activities**. Participants are involved in ongoing research programs in the fields of **chemistry and biochemistry** with applications to disease detection and treatment and pharmaceutical synthesis.

**STIPEND: \$5,000/summer + room & board**

***Applications may be reviewed upon completion. Deadline: February 5, 2021.***

Priority will be given to applications completed by/before the February 5 review date.

Applicants should be rising Freshman through Senior undergraduate students majoring in chemistry or biochemistry. ***Underrepresented minorities, women, persons with disabilities, first generation students and veterans of the U.S. Armed Forces from primarily undergraduate institutions in West Virginia and the Appalachian region are especially encouraged to apply.***

**Link to online application**, information on specific faculty research interests, and other information on the NSF-funded Chemistry REU site can be obtained at:

<https://undergraduateresearch.wvu.edu/research-opportunities/wvu-opportunities/reu-site-research-in-chemistry-at-wvu>

Currently, the 2021 REU Site - Research in Chemistry at West Virginia University - is being planned as an onsite program according to schedule. Due to the ongoing circumstances surrounding the COVID-19 pandemic, the ability for an onsite program may change at any time. Please note that WVU may cancel the 2021 REU Site if, in WVU's sole discretion, the state of the COVID-19 pandemic has not improved sufficiently for WVU to safely hold the program.
