

Summer Undergraduate Research Fellowships

Experience the career of a biomedical researcher at one of two adjacent world-class research institutions: University of Cincinnati College of Medicine (UC COM) or Cincinnati Children's Hospital Medical Center (CCHMC).

- Participate in a paid 10-week fulltime biomedical research project from starting the day after Labor Day.
- Work with a faculty advisor assigned based on mutual research interest
- Attend social and scientific events and our Professional Development Series
- Present your work at the Capstone Poster Symposium

Applications are accepted from Nov 1st through Feb 1st at <http://med.uc.edu/SURF>

UC COM and CCHMC feature ongoing research in nearly all areas of biomedical investigation.

Major research focus areas include:

- Cardiovascular and pulmonary disease
- Cancer and blood diseases
- Developmental disorders
- Immunobiology and infectious diseases
- Metabolic disorders
- Neuroscience, neurodegenerative disorders and psychology
- Bioinformatics and Big Data

2021 SURF Programs Include:

GE	Graduate Education (College of Med)
CCHMC	Cincinnati Children's Hospital Med Center
BMI	Biomedical Informatics Fellowship
Neuro	Neuroscience Fellowship
ASPET	American Society of Pharmacology and Experimental Therapeutics Fellowship
HEART	American Heart Associate Fellowship
